MACHINERY

Index to Vol. XIX

September, 1912, to August, 1913

Engineering and Shop Editions

1913
THE INDUSTRIAL PRESS,
49-55 Lafayette St.,
New York

Index to MACHINERY

	Eng.	Shop.
Abbott Ball Co.:		
Abbott Motor-Driven Burnishing Barrel	400	264
Abbott Oscillating Burnishing Barrel..	728	488
Abbott Hardware Co.:		
Abbott Reseater for the Jenkins Valve.	987	667
Accident Prevention, Education in.....	189	
Accident Prevention, Instruction in.....	788	
Accident Prevention, The Engineering of..	764	524
Accidents in Machine Shops, Prevention of Electrical	125	69
Accidents per Annum, Penn. R. R.....	359	
Accounting System, The Value of a Uniform	433	
Accumulator, Hydro-Pneumatic	483	323
Acheson, Dr. E. G., Personal of.....	565	381
Acid-Resisting Alloy	579	395
Acklin Stamping Co.:		
Drawing a Motor Cycle Muffler Base...	539	355
Acme Machine Tool Co.:		
Set-Over Turret	655	439
Acme 16- and 18-inch Universal Turret Lathe	905	609
Acme Multiple Spindle Automatic Screw Machine, The—1. Douglas T. Hamilton	243	163
Acme Thread Tools, Measuring the Flat on U. S. and. Guy H. Gardner.....	843	579
A Connecticut Manufacturer:		
Cutting Rubber Disks.....	897	601
Adams, C. L.:		
Erasing on Tracings.....387		248
Addis, W. H.:		
Repairing Lathe Chuck Screws.....	139	83
Roughing Reamer for Chrome-Nickel Steel Gear Blanks	213	133
Universal Micrometer Device.....	215	135
Broaching Hexagon Collets in the Lathe	385	249
Making Uniform Cams.....	721	481
Administration and Scientific Management, Industrial—3. Forest E. Cardullo.....	18	
Adt, H. E., Personal of.....	414	279
Advance Machine Tool Co.:		
Advance Adjustable Tailstock.....	654	438
Advertising in Street Cars.....	969	649
Aeronautical Exhibition, The British.....	681	465
Aeronautics in Europe.....	838	574
Aeroplane Design and Aeronautical Motors, Progress in.....	753	513
Aeroplane Exhibition, International.....	368	
Aeroplane, Five Hundred Mile Flight By..	825	561
Air Compressor, Portable.....	655	439
Air Compressor, Vertical.....	655	439
Air Equipment, Conditions Governing Efficiency of Compressed.....	855	
Airships of the Future.....	171	115
Ajax Mfg. Co.:		
Ajax Reclaiming Rolls.....	147	91
Alert Tool Co.:		
Roller Mandrel	565	381
Allan, James R.:		
Twist Drill and Steel Wire Gages.....	519	
Alles, William J., Personal of.....	746	506
Allison, L. R. W.:		
Erasing Ink Marks from Tracings.....	58	34
Erasing on Tracings.....	550	366
Allowances on Parts to be Assembled by Pressure. S. M. Howell.....	100	
Alloy, A Cheap White Metal.....	882	
Alloy, Acid-Resisting.....	579	395
Alloy, An Aluminum.....	343	
Alloy for the Extrusion Process.....	334	230
Alloys, Composition of Non-Ferrous.—With Data Sheet.....	696	
Aloxite Cloth Rolls.....	157	101
Alton, W.:		
Cutting a Keyway in a Lathe.....	633	417
Aluminum Alloy, An.....	343	
Aluminum and White Metals, The Machining of. Kurt Deinhardt.....	970	650
Aluminum for Jig and Fixture Frames....	591	
Aluminum Reduction Plant, New.....	299	195
Aluminum, The Price of.....	449	
Alvan Mfg. Co.:		
Alvan Height Gage.....	742	502
American Laundry Machinery Co.:		
American Blueprint Ironer.....	906	610
American Multigraph Co.:		
Fixtures and Gages Used in Manufacturing the Multigraph.....	609	
American Railway Master Mechanics' and Master Car Builders' Associations Conventions	917	621
American Roller Bearing Co.:		
Roller Bearing	410	274
American Society of Mechanical Engineers. William F. M. Goss.....	411	275
American Society of Mechanical Engineers, Annual Meeting of the.....	412	276
American Society of Mechanical Engineers and Verein Deutscher Ingenieure, Joint Meeting of	158	102
American Society of Mechanical Engineers and Verein Deutscher Ingenieure in Germany, Joint Meeting of the.....	286	
American Society of Mechanical Engineers Excursion to Germany.....	919	623
American Society of Mechanical Engineers, Spring Meeting of.....	827	563
American Spectacle Co.:		
Eye Protectors	565	381
American Tool Works Co.:		
Tool-Room Lathe	59	35
American High-Speed Sensitive Radial Drill	300	196
American High-Duty Axle Lathe.....	552	368
Ames Co., B. C.:		
Bench Lathe	312	208
Bench Filing Machine.....	312	208
Ammeters and Voltmeters, Direct-Current	915	619
Ams Machine Co., Max.:		
Max Ams Knuckle Joint Press.....	908	612
Anger, August H.:		
Device for Drawing Dotted Lines.....	215	135
Finding the Center of Gravity of any Four-Sided Figure	293	189
How to Figure the Volume of Curved Flanges	720	480
Angle for Draftsmen, Supplementary. Drafting Room	297	193
Angle Irons, Deflection of.....	636	420
Angle Measurements, Disks for Accurate. Guy H. Gardner.....	823	559
Angle-Plate for Jig Works, An Efficient. John R. Jarvis.....	57	33
Angle-Plate for Lathe Faceplate, Adjustable	447	
Angle, Setting Up Work at an.....	550	366
Angles and Tapers on Small Work, Tool for Measuring. Guy H. Gardner.....	890	594
Angles Bent to Circular Shape, Length of. R. H. Crevoisie.....	530	
Anneal and Harden High-Speed Steels, To. W. C. Betz.....	132	76
Annealing High-Speed Steel.....	257	177
Annealing High-Speed Steel.....	431	295
Antiquated Machine Tool Equipment.....	682	466
Appraisal, Modern Practice in Manufacturing Plant. Charles W. McKay.....	686	
Apprentices, The Training of.....	343	
Apprenticeship Courses—The Development of Skilled Mechanics. C. J. Morrison..	755	515
Apprenticeship System, A Modern. A. J. Schneider	762	522
Apron Mechanism for Screw-Cutting Lathe, Novel Construction of. W. R. Oakes..	133	77
Arbor Press, The Greenerd.....	728	488
Arbors for Threaded Work, Knock-Off. Albert A. Dowd.....	935	639
Arc when Length of Chord and Height of Arc are Given, To Find Radius of...	298	194
Area of a Surface of Revolution, To Find the	299	195
Armstrong Bros. Tool Co.:		
Adjustable Boring Tool.....	312	208
Armstrong, George W.:		
Winding a Conical Spring.....	550	366
Turning a Piece to Two Different Diameters	635	419
Armstrong, H. C.:		
To Hold Slip Jig Bushings in Place....	635	419
Arnaiz, Ysidoro, Personal of.....	999	679
Ashcroft Mfg. Co.:		
Ashcroft Thickness Gage for Sheet Materials	228	148
Athol Machine Co.:		
Athol Vise With Swivel Base.....	643	427
Atkins & Co., E. C.:		
Metal-Cutting Saws	915	619
Atkinson, C. J., Personal of.....	414	279
Atlas Ball Co.:		
Atlas Ball Gages.....	731	491
Attachment for Standard Automatic Gear-Cutters, Vertical	644	428
Auberty, Francis, Personal of.....	746	506
Aurora Tool Works:		
Aurora Drill With Positive Geared Feed	733	493
Autogenous Welding. See Welding.		
Automatic Machine Co.:		
Automatic Threading Lathe.....	401	265
Automatic Screw Machine. See Screw Machine.		
Automobile Bevel Drive Gears. Douglas T. Hamilton.	417	281
Automobile Designers, A Suggestion for. Stanley Edwards	389	253
Automobile Engineers, Society of.....	528	
Automobile Industry, Tremendous Growth of	683	
Automobile Manufacturing Methods. Douglas T. Hamilton.....	870	
Automobile Manufacturing Organizations..	511	
Automobile, Popularity of the American..	506	346
Automobile Show, Machine Tool Exhibit at National	318	212
Arc, when length of Chord and Height		
Automobile Show, The National.....	485	325
Automobile Spider, Machining an. F. Server	294	190
Automobile Transmission, Efficiency of Worm Gearing for.....	46	22
Automobiles in the United States, Output of	596	
Aviation, Some Aspects of.....	851	
Axle Press Fits, Wheel and.....	83	59

B

Babbitted Bearings in Halves, Making. S. Theresa	250	170
Babbitting Device, A. C. F. Meyer.....	250	170
Babbitting Fixtures, Forms of. John A. H. Phillips	269	
Babcock, H. L., Personal of.....	830	566
Basford, George M., Personal of.....	664	448
Back-Shaft of a B. & S. Automatic Screw Machine, Taking Out. Nevin Bacon....	218	138
Back-Shaft of a B. & S. Automatic Screw Machine, Taking Out. J. Harmon.....	471	311
Back-Shaft of a B. & S. Automatic Screw Machine, Taking Out the. Elam Whitney	721	481
Bacon, Nevin:		
Taking Out Back-Shaft of a B. & S. Automatic Screw Machine.....	218	138
Measuring Screw Machine Chips.....	219	139
A Swaging Operation.....	294	190
Bagley, J. N.:		
An Accurate Center Punch.....	139	83
Baker Bros.:		
Baker Bros. High-Speed Drilling Machine	153	97
Baker, Donald:		
Method of Accurately Locating Drilled Holes	717	477
Balancing Automobile Engine Flywheels..	107	
Ball and Roller Bearings, Early Development of	918	622
Ball and Roller Journal Bearings. Robert H. Grant	34	
Ball Bearing, Gurney Annular.....	156	100
Ball-Bearing Hangers, S. K. F.....	737	497
Ball Bearings in Machine Tools, Use of..	726	486
Ball Bearings, Making Annular. Robert H. Grant	265	
Ball Bearings, Making New Departure. C. L. Lucas.....	165	109
Ball Bearings On Railway Cars.....	901	605
Ball Bearings—Their Construction and Application	880	
Ball-Burnishing Process, The Abbott. Chester L. Lucas.....	287	183
Ball for Holding Taps and Reamers, Steel. J. A. Jesson.....	896	600
Ball Gages, Atlas.....	731	491
Ball Joints, Device for Grinding Half. Leroy Smith	972	652
Ball, Martin H.:		
Aligning Pulleys for Quarter-Turn Belt Drives	5	5
Location of Keys and Set-Screws.....	634	418
Ball Players' Shoe Plates, Making. A. F. Horton	780	
Ball Separator, F. & S. Ribbon Type.....	480	320
Ball-Thrust Bearings, Avoiding Spherical Seats for. L. Grierson.....	309	253
(Ball) Turning Spherical Shapes by Hand. H. W. Ricks.....	292	188
Ball Without Centers, Turning a. J. M. Henry	292	188
Balls, Making Soft Metal. J. F. Estle...	626	410
Barcy-Nicholson Co.:		
Barcy-Nicholson Lathe Chip Guard.....	480	320
Bardons, George C., Personal of.....	830	566
Barker, James:		
Locating Punches in Tandem Dies.....	466	306
Barnes Co., W. F. & John:		
No. 5 Gap Lathe.....	62	38
Barrel, Abbott Oscillating Burnishing...	728	488
Barrett, D. O., Personal of.....	236	156
Barrett, Karl E.:		
Section Moduli for Rectangles.—With Data Sheet	523	
Bartlett, Edwin E.:		
The Greenerd Arbor Press.....	728	488
Bartlett, G. M.:		
Selecting the Number of Teeth for Gears and Sprockets	39	
A Practical Form of Tooth for Skew Bevel Gears	373	
Bath Grinder Co.:		
Bath Universal Grinding Machine.....	394	258
Baush Machine Tool Co.:		
Raush Boiler Shell Drilling Machine..	306	202
Radial Drill	999	679
Baxter, E. Winslow:		
Duplication of Gears Having Long and Short Addenda	775	
Beam Compass, Home-Made. Thorvald Petersen	635	419
Beaman & Smith Co.:		
Special Beaman & Smith Milling Machine	151	95
Beaman & Smith Four-Spindle Milling Machine	302	198
Bearing, Dodge Capillary.....	821	557
Bearing, Roller	410	274
Bearings. See Ball Bearings and Roller Bearings.		
Bearings, Die-Casting Automobile Motor..	158	102
Bearings in Halves, Making Babbitted. S. Theresa	250	170
Bearings in Typewriter Work, Pivot. A. Gray	719	479
Bearings, Making Annular. Robert H. Grant	265	
Bearings, Material Used in Roller.....	512	
Beaudry & Co., Inc.:		
Beaudry Power Hammer.....	148	92
Beaver, C. W., Personal of.....	414	279
Beck, Henry J.:		
Do Belts Run to the High Side?.....	544	360
A Cherrying Operation.....	976	656
Becker, Henry:		
A Bending Die.....	383	247
Becker Milling Machine Co.:		
Lincoln Milling Machine.....	483	323
Vertical Milling Machine.....	483	323
Beds With a Bickford Radial Drill, Machining Gas Engine.....	371	
Belt Drives, Aligning Pulleys for Quarter-Turn. M. H. Ball.....	5	5
Belt Idler	69	45
Belt Lacing, Twisted Rawhide.....	641	425

Index for engineering and shop editions. Page numbers of respective editions in columns headed "Eng. Shop."

260335

	Eng.	Shop.
Belt Lap-Joint, Inclination of	898	602
Belt Shifter	157	101
Belts, Reasons for the Running of. Arthur I. Jacobs	627	411
Belts Run to the High Side of Pulleys, Why	140	84
Belts Run to the High Side of Pulleys? Do. G. P. Pearce	387	251
Belts Run to the High Side? Do. Henry J. Beck	544	360
Belts Tend to Run Off Pulleys, Comment on Direction in Which. J. R. Rand	472	312
Belts When the Shafts are Out of Parallel, Action of. B. G. Cox	298	194
Belting Alignment, Comments on Quarter-Turn. S. S. Jennison	290	186
Belting for Power Transmission, Steel	452	
Bench Plate, Action of Peening Strains in a Cast-Iron. D. T. Hamilton	208	128
Bending and Punching Friction Plates, Bulldozer Atachment for. Ned D. Martin	803	539
Bending Appliances for Sheet-Steel Panels	469	309
Bending Machine, Meat Hook. J. Lee	805	541
Besly & Co., Charles H.:		
53-Inch Vertical Spindle Disk Grinder	67	43
Double-Spindle Ring-Wheel Grinder	565	381
Motor-Driven Lever Feed Disk Grinder	655	439
Betts Machine Co.:		
Boring Mill with Rapid Power Traverse	998	678
Betz, W. C.:		
To Anneal and Harden High-Speed Steels	132	76
Etching Fluid for Steel	719	479
Bevel-Gear Drive for Shafts Running in the Same Direction. Walter Gribben	977	657
Bickford and Co., H.:		
Bickford Vertical Chucking Machine	227	147
Bicycles, Motorcycles and Parts for 1909, Statistics of	946	
Bignall & Keeler Mfg. Co.:		
Bignall & Keeler Type Thread Gage	819	555
Bevel-Gear Drive for Shafts Running in the Same Direction. Francis W. Clough	800	536
"Bevel Gear Drive for Shafts Running in the Same Direction"—Explanation	919	623
Bickford Machine Co.:		
Bickford Upright Tap-Threading Machine	231	151
Bickford Tap Squaring Fixture	561	377
The Bickford Relieving Attachment	563	379
Bickford Tap Squaring Fixture for Fluting Machine	647	431
Bickford Geared Oil	742	502
Bickford Bench Grinder	742	502
Bickford Cementing Press	993	673
Bill Jones, One-Time "Tramp Mechanic"	362	
Billings & Spencer Co.:		
Billings & Spencer Safety Lathe Dog	301	197
Blackening of Brass, The Cheap	138	82
Blackett, V. C.:		
Measuring Right-Angled Fittings	635	419
Blake & Johnson Co.:		
Blake & Johnson Gang Slitting Machine	230	150
Blanking and Drawing a Large Steel Cup in One Operation	900	604
Bliss Co., E. W.:		
New Square Cam Double Seamer	144	88
Stagger Feed Spacing Table for Bliss Presses	228	148
Bliss Automatic Trimming and Curling Machine	304	200
Press for Forming Automobile Side Frames	823	559
Bliss Double-Crank Press	913	617
Bliss Double-Crank Toggle Drawing Press	995	675
Blow Torch, Westinghouse Universal	992	672
Blue Color on Nickled Steel, Producing a. Robert Grimshaw	138	82
Blueprint Drying Rack. G. W. Burley	470	310
Blueprint Ironer, American	906	610
Blueprint Paper, The Manufacture of. F. B. Hays	101	
Blueprints After Washing, Correct Method of Hanging. C. H. Casebolt	220	140
Blueprints, Making of. F. B. Hays	139	83
Blueprints, On Folding	860	
Blueprints, Restoring Over-Exposed	169	113
Blueprints, Restoring Over-Exposed. G. W. Burley	389	253
Boella, G.:		
Double Gripping Chuck	293	189
Boiler Capacity by Mechanical Draft, Increasing	6	6
Boilers, Test on Sectional Firebox	45	21
Bollinckx, H.:		
Fireproof Vault for Drawings	713	473
Bolt for Masonry, Fastening	744	504
Bolt Pointer, Victor	991	671
Bolt Turning Machine	998	678
Bolts, Strength of Cylinder Head. J. P. Farnsworth	891	595
Bonus Plan, Some Good Results Obtained by the. W. L. Myles	283	179
Boosting the Game, At the Auto Show—	500	340
Boring a Large Compression Coupling. A. H. Myers	801	537
Boring and Drilling Machine, Moline	62	38
Boring and Facing the Spindle Bearings of Lathe Headstocks	22	
Boring and Turning Mill	916	620
Boring Bar, Adjustable	892	596
Boring Bar, Marvin & Casler	813	549
Boring, Drilling and Milling Machine, Horizontal	312	208
Boring, Drilling and Milling Machine, Portable	655	439
Boring Head and Drill Chuck, Offset	916	620
Boring Head, Precision	232	152
Boring Machine, A Double-Spindle Crank-Case	268	
Boring Machine, Cylinder	69	45
Boring Machine, Foote-Burt Cylinder	910	614
Boring Machine, High-Duty Box	410	274
Boring Machine, Horizontal	69	45
Boring Machine, Horizontal	999	679
Boring Machine, Three-Spindle Cylinder	744	504
Boring Machine, Underwood Armature and Axle Bearing	309	205
Boring Machines, Cylinder	410	274
Boring Machines, Locating Balance Weight Chains on Horizontal. W. G. Dunkley	259	
Boring Mill Attachment	469	309
Boring Mill with Rapid Power Traverse	998	678
Boring Mills, Locating the Driving Screw on Horizontal. W. G. Dunkley	590	
Boring, Milling, Drilling, and Tapping Machine, Rochester	309	205
Boring, Milling, Drilling and Tapping Machines, Rochester Table for	815	551
Boring Mortar Carriages	233	152
Boring Operation, A Difficult. W. E. Fladd	465	305
Boring Tool, Adjustable	312	208
Boring-Tool Holder, Improved Design of. Robert Mawson	57	33
Boring Tools, "Sore Finger"	585	401
Boston Gear Works:		
The Heat-Treatment of Gears at the Boston Gear Works	757	517
Boston Gear Hobbing Machine	808	544
Bowen, J. R.:		
Standard Sprockets for Chain Drives.—With Data Sheet	945	
Braces, Lucas Jacks, Props and	424	
Bracket, Electric Light. Charles F. Scribner	897	
Bradford Machine Tool Co., The:		
Bradford Heavy Pattern Lathe	305	201
Bradshaw, George, Personal of	664	448
Brake for High-Speed Lathe. F. O. Smyth	804	540
Brake, Multiple Disk	998	678
Bramwell, Joseph W.:		
Bramwell Precision Drawing Instrument	481	321
Brass, Etching on	983	663
Brass Iridescent Colors, Coloring	981	661
Brass, The Cheap Blackening of	138	82
Brasses by Color, To Distinguish	233	153
Brasses On a Dill Slotter, Machining Crown	382	246
Brassington, J. W.:		
Characteristics of Friction Clutches	941	
Brazing Table, Improved	910	614
Brennan, J. E., Personal of	320	214
Bretz Co., J. S.:		
F. & S. Ribbon Type Ball Separator	480	320
Bridgeford Machine Tool Works:		
Large Motor-Driven Lathe	822	558
Bright, F. E., Personal of	414	279
Bristol Co.:		
Bristol Recording Differential Pressure Gage	659	443
Float Type Recording Differential Pressure Gage	823	559
British Industrial Conditions	595	
British Views On Publicity	879	
Broaching a Long Keyway	969	649
Broaching Automobile Parts. Chester L. Lucas	787	
Broaching a Vacuum Cleaner Part. Ralph R. Lapointe	901	605
Broaching Hexagon Collets in the Lathe. W. H. Addis	385	249
Broaching Machine	744	504
Broaching Machine	822	558
Broaching Machine With Motor Drive	312	208
Broaching Operation, A Highly Developed	860	
Broaching, The Development of	941	
Broaching the Square Holes in Vise Bodies	435	
Broaching vs. Milling. Frank J. Lapointe	799	535
Broaching Wrenches	916	620
Broadhead, A. P.:

Index for engineering and shop editions. Page numbers of respective editions in columns headed "Eng. Shop."

	Eng.	Shop.
Slide Rule for Spring Calculations. Josef Y. Dahlstrand	856	
Slide Rule, Keuffel & Esser Power Computing	484	324
Slitting Machine, Blake & Johnson Gang	230	150
Sloan & Chace Mfg. Co., Ltd.: Automatic Pinion-Making Machine	744	504
Sloan & Chase Mfg. Co.: Knee Drilling and Tapping Machines	655	439
Spiral Gear Cutter	232	152
Slocomb Co., J. T.: Slocomb Disks for Testing Micrometers	554	370
Slot in Fillister-Head Screw, Unusual Form of	111	
Slots in Screw Heads	320	214
Slotting Fixture, A Semi-Automatic. J. H. Harris	203	
Slotting Fixture, Screw. W. R. Oakes	894	598
Slotting Machine, High-Speed	61	37
Slotting Machine, Newton Rack-Driven	639	423
Slotting Machine, Portable	157	101
Slotting Machine, Rotory Tool-Holder for a	975	655
Slotting Machines and Tools Used in the Pond Shops, Some. Alfred Spangenberg	950	
Smart, Charles E.: The Common Limitation of Machine Tool Channel Room for Chips	838	574
Smith, Albert S., Personal of	72	48
Smith & Mills Co.: An Unusual Shaper Job	80	56
Smith, Charles G.: Standard Tapers for Safety Emery Wheels	623	407
Smith Drill & Machinery Co.: Air-Driven Breast Drill	998	678
Smith, Dyer: Patent Experting—A New Field for Engineers	343	
Smith, Dyer, Personal of	830	566
Smith Electric Tool Co.: Smith Portable Electric Center Grinder	558	374
Smith, F. O.: Brake for High-Speed Lathe	804	540
Smith, G. W.: Riveting in a Hand-Press	390	254
Smith, H. Collier: Rotary Shear	410	274
Smith, Harold G.: Hints for Draftsmen	724	484
A Novel Suggestion System	890	594
Smith, J. Crawford: High-Pressure Hydraulic Joints	138	82
Smith, Leroy: Spreader for Shoes and Wedges	896	600
Device for Grinding Half-Ball Joints	972	652
Snow, W. B., Personal of	322	216
Snow, William E.: Hardening Hammer Dies	760	520
Snyder & Son, J. E.: Sensitive Drilling Machine	564	380
Sockets, Square and Hexagon	91	67
Solder Steel to Cast Iron, To	964	
South Bend Machine Tool Co.: Engine Lathe	410	274
Gap Bed Engine Lathe	410	274
South Bend Watch Co.: Watch Movement Manufacture — 4. Douglas T. Hamilton	85	61
Southern Pacific Electric Locomotives	165	
Southwick Co., George W.: Twisted Rawhide Belt Lacing	641	425
Space? What is	207	127
Spafford Tool Works: Automatic Profiling Device	486	326
Spangenberg, Alfred: Some Slotting Machines and Tools Used in the Pond Shops	950	
Sparkhul, F.: Combination Punching, Cutting and Forming Die	722	482
Specialists Who Do Not Specialize in Prices	432	296
Specialists Who Do Not Specialize in Prices. Victor Page	544	360
Specialty Machine Co.: Automatic Valve Grinder	230	150
Speed-Boxes, Figuring Out Gears for. J. J. Densman	588	
Speed Boxes, Figuring Out Gears for	827	563
Speed Regulator, Scriven	908	612
Speeders, Graham Drill	811	547
Spherical Shapes by Hand, Turning. H. W. Ricks	292	188
Spherical Turning. J. M. Henry	55	31
(Spherical) Turning a Ball Without Centers. J. M. Henry	292	188
Spider, Machining an Automobile. F. Server	294	190
Spillman, Harry C.: Power Requirements for Machine Tools	769	
Spinning, An Improved Method of Metal	933	637
Spiral Gear Combinations, Formulas for. L. G. Zesbaugh	525	
Spiral Gear Design—With Data Sheet. James H. Carver. 1	263	
2	365	
Spiral Gear Teeth, Dimensions of. Arthur C. Maxfield	862	
Spiral Gears, Determining the Lead of. Guy H. Gardner	52	28
Spiral Gears, Selecting the Cutter for Milling—With Data Sheet. George W. Burley	435	
Splitting Machine, Burke Bushing	911	615
Spoke Machines, Waterbury Farrel Wire	809	545
Spring, A Compound. H. Gusennep	383	247
Spring Calculations, Slide-Rule for. Josef Y. Dahlstrand	856	
Spring Coiler, Sleeper & Hartley	990	670
Spring Machines	999	679
Spring Tool, Lathe. Stanley Edwards	896	600
Spring, Winding a Conical. George W. Armstrong	550	366
Spring Winding Machine	916	620
Springs, Attachment for Winding Close Coils in. W. Haggas	290	186
Springs, Test of Locomotive	918	622
Springs, Winding. Earl W. Johnson	627	411
Springs, Winding Piano Wire Tension—With Data Sheet	591	
Springer, J. F.: Pre-Heating Metals to be Welded by Oxy-Acetylene Process	96	
Springfield Mfg. Co.: Combination Dry and Wet Grinder	483	323
Vertical and Horizontal Rotary Oscillating Surface Grinder	564	380
Vertical Planer-Type Grinder	565	381
Shear Blade Grinder	655	439
Ring Wheel Grinder	655	439
Springfield Wet Tool Grinder	989	669
Springfield Dry Grinders	992	672
Sprinklers and Insurance Rates, Automatic	253	173
Sprockets for Chain Drives, Standard—With Data Sheet. J. R. Bowen	945	
Spur Gears, Designing a Hob for Hobbing. John Edgar	205	125
Square and Hexagon Sockets	91	
Square Milling Operations, Calculations and Data for. George W. Burley	772	
Square Pieces Cornerwise in a Vise, Holding. E. J. Buchet	896	600
Squaring the Circle	682	466
Stamping Machine, Self-Aligning Fixture for a. Donald A. Hampson	724	484
Stand for Portable Drills	156	100
Standard Electric Tool Co.: Portable Electric Grinder	153	97
Portable Electric Drill	483	323
Standard Portable Electric Drills	557	373
Standard 1¼-Inch Portable Electric Drills	911	615
Standard Machinery Co.: Standard Machinery Co.'s Presses	144	88
Standard Back-Geared Power Press	553	369
Standard Double-Action Single Cam Press	912	616
Standard Mfg. Co.: Vertical Attachment for Standard Automatic Gear Cutters	644	428
Standard Steel Shelving Co.: Steel Shelving	915	619
Standardization in the Motor Car Industry	361	
Standardization of Machine Tool Parts	17	
Standardization, The Need of	587	
Stanitz, J.: Blanking, Forming and Punching Die	80	538
A Problem in Press Work	898	602
Starrett Co., L. S.: Starrett Co.'s Hub Micrometer	406	270
Heavy Starrett Micrometer	904	608
Starrett, L. S., Personal of	746	506
Stauffer, David McNeely, Obituary of	565	381
Steadyrest Novelty, A	217	137
Steam Engine, The Uniflow	114	
Steam Power Plant Piping Details. William F. Fischer. 1	443

Welding Outfit, Oxy-Acetylene	565	381
Welding Tool-Steel Segments to Cast Iron	983	663
Welfare Work at the Utica Drop-Forge & Tool Co.'s Shop	502	342
Wells & Son Co., F. E.: Wells Friction Head Hand Screw Machine	655	439
Wells Bros. Co.: Wells Bros. Co.'s Self-Opening Die	727	487
Milling Die-Blanks on Automatic Gear Cutters	939	643
Wells, F. O., Personal of	664	448
Wennerstrom Bros.: Wennerstrom Dividing Chuck	993	673
West Haven Mfg. Co.: Extension Hacksaw Frame	61	37
West Haven Universal Hacksaw Machine	648	432
West Haven Plier-Wrench	735	495
Westinghouse Electric & Mfg. Co.: Westinghouse Motor for Driving Bending Rolls	563	379
Resuscitation from Electric Shock	661	445
Westinghouse Induction Motor	989	669
Westinghouse Universal Blow Torch	992	672

Index for engineering and shop editions. Page numbers of respective editions in columns headed "Eng. Shop."

	Eng.	Shop.
Westinghouse Single-Phase Motor	997	677
Weston Electric Instrument Co.:		
Direct-Current Ammeters and Voltmeters	915	619
What a Man Can Do When He Gets Mad. A. P. Press	80	56
Wheel and Axle Press Fits	83	59
Wheels by Centrifugal Stress, Increase of Bore of	520	
Wheels, Chrome-Vanadium Steel	599	
Wheels for Trucks in Manufacturing Plants	506	346
Wheeler, J. L. A., Obituary of	830	566
Whip, Cooling a Deep-Hole Drill	633	417
Whipple, Marcus M., Obituary of	922	626
White, C. F., Personal of	664	448
White Co.:		
Automatic Bevel Drive Gears	417	281
White, E. L.:		
Method of Leveling Line-Shafting	472	312
Whiting Foundry Equipment Co.:		
Traveling Crane Trolley	822	558
Wiener Machinery Co.:		
Combination Punch and Shear	999	679
Wightman, L. I., Personal of	160	104
Willard Machine & Tool Co.:		
Willard Gap-Bed Engine Lathe	308	204
Williams & Co., J. H.:		
Dogs and Drivers	236	155
Williams, Arthur, Personal of	830	566
Williams, Lawrence W.:		
Tool for Cutting Out Rings or Disks from Fiber Sheets	214	134
Williams, Thomas:		
Method of Preventing Dies from Cracking Through Screw Holes	895	599
Williams, W. H., Personal of	999	679
Willys Overland Co., Shop Practice of the. Douglas T. Hamilton	495	335
Wilmarth & Morman Co.:		
Wilmarth & Morman Motor-Driven Cutter, Reamer and Drill Grinder	228	148
Wilson, A. H.:		
Drawing Board Dust Curtain	719	479
Wilson-Maeulen Co.:		
Wilson-Maeulen Portable Pyrometer	397	261
Winchester, John F., Personal of	922	626
Winchester, John F.:		
The Inspector	208	128
Letters on Practical Subjects	462	302
Machining Gasoline Engine Governor Valves	499	339
Distribution of Catalogues	550	366
Wind, A.:		
Another Cure for Noisy Gearing	216	136
Arrangement for Turning Pulleys	390	254
Winding Piano Wire Tension Springs—With Data Sheet	591	
Winding Springs. Earl W. Johnson	627	411
Winfield Electric Welding Machine Co.:		
Welding Machine	68	44
Winter, Otto R.:		
Drawing a Small Shell from Thick Brass	213	133
Combination Folding and Curling Die	220	140
Wire and Sheet-Metal Standard Gages	181	
Wire Bending in the Foot-Press	534	
Wire Drawing. Erik Oberg	75	51
Wire-Forming Job, Four-Slide Tools for a. Chester L. Lucas	773	
Wire Rope Drums, Strength of. R. H. Crevoisie	580	396
Wire Ropes for Lifting Appliances	103	
Wire Spoke Machines, Waterbury Farrel	809	545
Wire Straightener and Cutter, Automatic	312	208
Wire Working Machinery	364	
Wireless Motors, Country Blacksmith Wants. F. S. Culver	855	
Wisconsin Miller Mfg. Co.:		
Wisconsin Motor-Driven Hand Miller	642	426
Wolf, J., Personal of	322	216
Wood, H. E.:		
Dogs and Drivers for Lathe Work	108	
Wood, Henry M.:		
Turning and Forming Cluster Gears	507	347
Wood, John A.:		
Cutting Coarse Internal Threads in the Lathe	139	83
Refitting a Worn Strap on an Engine Connecting-Rod	296	192
Woods Engineering Co.:		
Universal Tool and Cutter Grinder	999	679
Woodward & Powell Planer Co.:		
Planing Machine with Reversing Motor	312	208
Frog and Switch Planer	484	324
Woodworth, J. V.:		
Producing Drawn Steel Rollers in a Gang Die	212	132
Worcester Polytechnic Institute:		
Washburn No. 2 High-Speed Sensitive Drill	395	250
Worcester Pressed Steel Co.:		
Modern Methods of a Press Working Plant. C. L. Lucas	275	
Workingmen's Compensation	430	294
Workshops of the University of Sheffield, The Engineering. George W. Burley	699	
Worm and Helical Gears as Applied to Rear Axle Drivers	36	
Worm-Box, The Drop. J. Coulson	131	75
Worm Gearing at the Brooklyn Navy Yard, Making Hindley	210	130
Worm Gearing, Efficiency of	297	193
Worm Gearing for Automobile Transmission, Efficiency of	46	22
Worm Gearing, Points in the Making of	251	171
Worms of Steep Pitch in the Lathe, Cutting	58	34
Wrench, Pipe	312	208
Wrenches and Chains, Rack for Holding. H. E. Gillette	892	596
Wrenches, Broaching	916	620
Wrenches, Stillson	998	678
Wrinkles in Drawn Work, Prevention of	49	25
Wrought Iron, Characteristics of. A. L. Haas	112	

Y

Yale & Towne Mfg. Co.:		
Yale & Towne New Office Building	746	506
Yamatake & Co.:		
On the General Distribution of Catalogues in Japan	380	253
Yawman & Erbe Mfg. Co.:		
Drafting-Room Vertical File	822	558
